SUMMARY

As an aspiring game enthusiast, I embarked on a transformative journey into the realm of programming, fueled by a fervent passion for web development and mobile applications. My initiation into the coding universe commenced with the successful completion of the Hactiv8 bootcamp, where I honed my skills as a full-stack web developer. Motivated by a profound desire to pivot from my previous career in the Mining Industry, I eagerly embraced this career transition to pursue a lifelong passion for technology.

EDUCATION

Hactiv8 Jakarta, Indonesia

Full Stack JavaScript Immersive Program ([Transcript](#))

October 2023 – January 2024

Universitas Sriwijaya Palembang, Indonesia

Bachelor of Economic Development (Unfinished SKS(140/144))

2015 – 2022

SMA Negeri 15 Bekasi, Indonesia

Social Sciences

2012-2015

WORK EXPERIENCE

CV Darma Nusantara

Warehouse Admin

Palangkaraya, Indonesia

August 2022 – October 2023

- Customer Relations: Managed relationships with customer from PT. Investasi Mandiri, understanding their financial situations and needs.
- Compliance and Documentation: Ensured compliance with all relevant regulations and industry standards in storing mining goods.
- Reporting: Prepared regular reports on warehouse activities, including client transactions, inventory levels, and revenue generation. Presented these reports to management to facilitate informed decision-making.

PT. Mid Solusi Nusantara (Mekari)

Technical Support

Jakarta, Indonesia

April 2024 – Present

- Application Support & Troubleshooting: Handle user issues within the application by investigating errors, reproducing bugs, and identifying root causes using logs, database checks, and JavaScript debugging tools.
- Root Cause Analysis & User Communication: Translate technical findings into clear, user-friendly explanations so clients understand the issue, its impact, and the resolution steps.
- Problem Analysis & Resolution: Analyze recurring problems, propose fixes, and collaborate with developers to implement stable, long-term solutions rather than temporary workarounds.
- System Improvement & Preventive Actions: Contribute to product improvements by documenting issues, suggesting feature enhancements, and helping refine workflows to reduce future incidents.
